

You will find that the Firefighters Hall is among the best values in Everett with great rates, location, convenience, and a setting like no other in town.

The assembly hall is operated by Everett's firefighters as a non-profit meeting space for the benefit of the greater Everett area. This is another example of how Everett Firefighters are working to make a positive difference in our community.

Common events appropriate for our facility include business gatherings, club and sportsmen meetings, celebrations, rehearsal dinners, wakes, and other large group catered meals.

Assembly Space

The approximate 1250 sq. ft. meeting room is fronted by a historic fire station façade including authentic brick finish and life size murals of antique fire trucks. The façade is surprisingly versatile in appearance and will give most functions a wonderful backdrop.

Our Hall can be configured for formal and informal events for groups ranging from 12 to 100 people seated at tables and chairs. The unique roll-out buffet allows the kitchen to be joined to the meeting room or it can be closed and remain completely separate.

Tables and chairs for 100 guests are provided. Choose between 5 ft. diameter round or 8 ft. long by 30 inches wide rectangular tables, or combine them. All tables and chairs are light and easy to clean hard plastic, off-white in color.

Men and women's ADA compliant bathrooms are neat and clean. Baby changing station also available.

Kitchen

Our kitchen has been praised by caterers and guests alike! Featuring a Wolf six-burner range, dual convection ovens, commercial refrigeration and miles of space, our kitchen can meet the needs of your event. Linens and tableware are not provided. Cookware is very limited. Ask us for our preferred caterer's list and leave the worry to someone else!

Audio & Video

The meeting hall is serviced with video and data projection, accepting a wide range of formats. The widescreen projector casts an image to a 160" retractable screen.

The meeting area is also serviced by 5 channel theater sound, cable television, a cordless voice microphone, and wireless internet connectivity (WIFI).
